**Enjoy Smooth Engine Performance
with Aazik1 Engine Oil.**

Aazik1 5W-30:

Our 5W-30 is a multi-grade motor oil that's commonly used in cars and SUVs. It's a good choice for a wide range of vehicles and engine types.

Benefits of Aazik1 5W-30:

- Flows more easily in winter temperatures
- Maintains a safe viscosity when the engine is hot
- Can function in temperatures as low as -30°C and as high as 35°C
- Protects critical engine parts
- Controls oxidation to prevent oil breakdown
- Provides excellent internal engine heat protection.

Compatibility:

Aazik 1 5W-30 is compatible with many models of common cars, including the Ford Ka, Ford Focus, VW Golf, Skoda Fabia, and Honda Civic.

Aazik1 10W-50:

Our 10W-50 is a fully synthetic high-performance engine oil that offers outstanding engine reliability and temperature stability under extreme driving conditions. It's used for a wide range of motorsports and modern engines with turbochargers.

Benefits of Aazik1 5W-30:

- **Extended engine life:** The thicker oil film of 10W-50 reduces wear and tear, which minimizes damage and extends engine life.
- **Reduced oil consumption:** 10W-50 is less prone to evaporation and burning, which reduces oil consumption between changes.
- **Better protection against wear and tear:** 10W-50's thicker oil film provides exceptional protection against wear and tear in hot climates.
- **Maximum power and performance:** 10W-50 provides superior control of ring belt and piston skirt deposits.

Compatibility:

Aazik1 10W-50 is ideal for high performance, naturally aspirated, supercharged, turbocharged, 4 cylinder, V6 and V8 engines.

Aazik1 OW-20:

Our OW-20 motor oil is liquid engineered to flow as easily as a 0 Weight oil in winter temperatures, yet behave like 20 Weight oil once the engine has achieved its full operating temperature. This ensures that even in cold climates, oil will start to flow through engine oil ways immediately, providing lubrication to critical engine parts.

Benefits of Aazik1 OW-20:

- **Performance:** Reduces the stress of daily wear, guaranteeing longer engine life.
- **Cleanliness:** Prevents buildup of contaminants and ensures a cleaner engine
- **Protection:** Prevents engine breakdowns by guarding against extreme extreme temperatures.

Compatability:

Aazik OW-20 is suitable for use in 5W applications because the '20' refers to the viscosity measurement value. That value is the one most critical aspect to match when selecting a motor oil. It is compatible with modern gasoline-powered vehicles like passenger cars, SUVs, light vans and light trucks. Basically, all vehicles that use SAE OW-20 and 5W-20 can use Aazik1 OW-20.

Aazik1 5W-20:

Aazik1 5W-20 is a fully synthetic oil that is suitable for winter temperatures down to -35°C.

Benefits of Aazik1 5W-20:

- **Cold weather protection:** 5W-20 oil flows well at low temperatures, which helps protect your engine when you start it in the cold.
- **Fuel efficiency:** 5W-20 oil has a reduced HTHS viscosity, which can help save fuel and reduce CO2 emissions.
- **Engine protection:** 5W-20 oil can help protect your engine from corrosion, wear and tear, and sludge formation.

Compatibility:

Aazik1 5W-20 oil offers ultimate protection for hybrids and engines running under start-stop conditions. It is compatible with passenger cars, SUVs and light vans such as Ford, Chrysler, GM, Toyota, Lexus, Kia, Subaru, Mitsubishi and Honda.
